About Bantani Education

Bantani Education is a non-profit organisation based in Belgium and working globally – Bantani means ‘away we go’ in Welsh, which is the spirit we bring to our work!

Our mission is to transform lifelong learning to include the development of transversal and entrepreneurial competences – skills for life in a VUCA world.

We do this by working across policy, practice and community to revolutionise how learners engage and learn.

This has built a talented team with a commitment to delivering excellence, alongside a global network of experts from across life-long learning who support our work.

Entrepreneurship is when you **act** upon **opportunities** and **ideas** and transform them into **value** for others. The value that is created can be **financial**, **cultural**, or **social**.

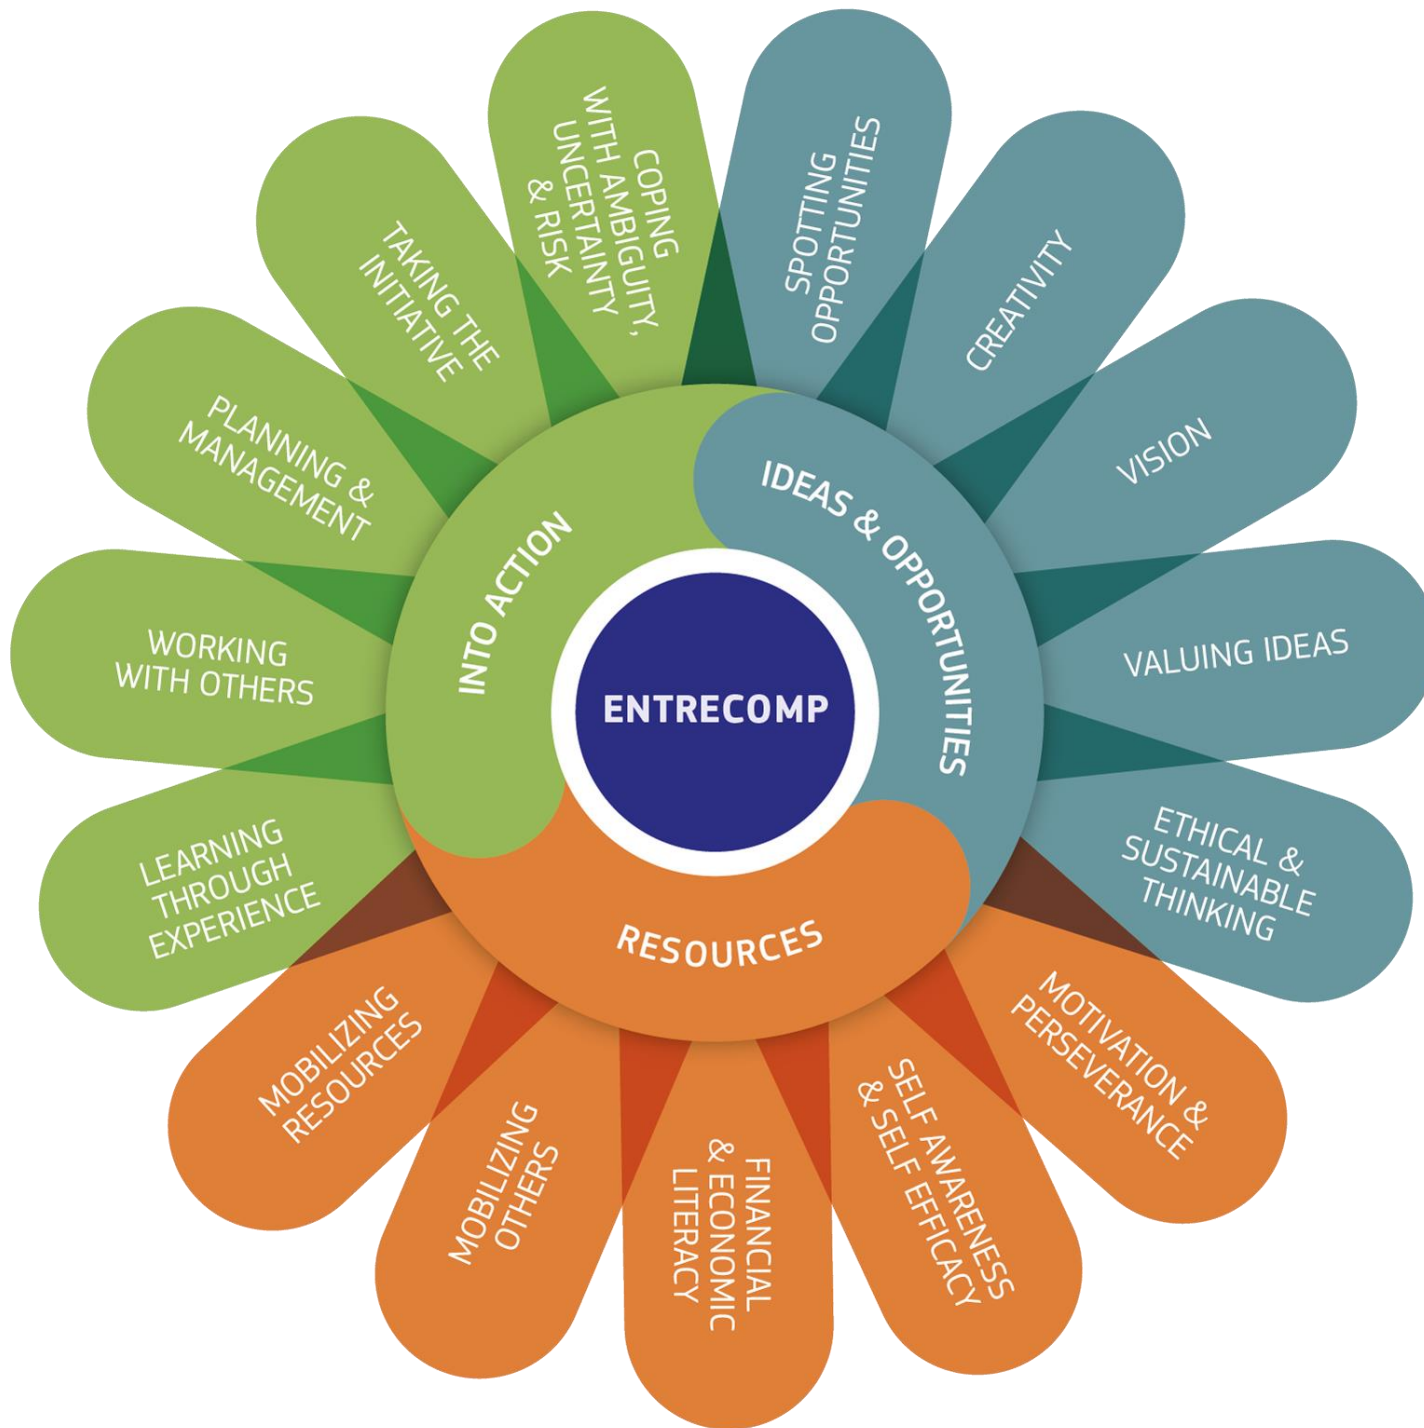

EntreComp 2016

Danish Foundation of Entrepreneurship / FFE 2011

The purpose of EntreComp

- Establish a common language to bridge the world of **learning and work**
- Enhance the **understanding** of entrepreneurship as a key competence
- Identify the **competences** that can be developed through lifelong learning
- Create understanding **among stakeholders** about the expected outcomes for different levels of proficiency across all levels of learning
- Help mainstream learning to **support value creation**

All about creating value...

Creating social value for others: joy, wellbeing, safe neighbourhoods, social justice, inclusive employment, environmental challenges, health campaigns, citizen parliaments, citizen science, e-sports

Creating cultural value for others: cultural inclusion, intercultural understanding, architectural renovation, theatre performance, language celebration, integration of migrants

Creating financial value for others: community funds, youth start-up, cooperatives, social impact ventures, university spinouts, solving business challenges, efficiency of NGOs, venture creation, financial change modelling to drive change
