External experts to avoid

To assess an application, the agency can use external experts. In the case of a written consultation of the experts, the names of the experts will not be released to you as an applicant. The experts are bound by confidentiality and objectivity. The agency avoids obvious competitors. As single applicant you can specify up to 15 names of companies, organizations, research groups or persons that you wish to exclude (entire sectors, countries or research institutions can't be excluded). If there are more partners, the overall maximum number is 30.

External experts to avoid

Next

Declarations

You are authorised to submit the general project information: complete your data as submitter with your e-mail address, go further and click on "Submit" under the overview of the provided information.

You are not authorised to submit the general project information? Forward the mail with the link to the application to the authorised person, to submit the general project information.

After submitting you cannot change the information. *Your application is complete when the general project information was submitted and the main applicant and possible project partners submitted their specific part. Then all submitters will receive a confirmation with an overview of the application.*

Declarations

You are a legal representative or mandated of the legal representative and want to submit the application: complete the declaration below, complete your data as submitter with your e-mail address, go further and click on "Submit" under the overview of the provided information.

You are not the legal representative and not mandated? Forward the mail with the link to the application to the legal representative or mandated, to complete the declaration and to submit.

After submitting you cannot change the information. Your application is complete when the general project information was submitted and the main applicant and possible project partners submitted their specific part. Then all submitters will receive a confirmation with an overview of the application.

As legal representative or mandated of the legal representative, I authorize Flanders Innovation & Entrepreneurship (VLAIO), acting on behalf of the Fund for Innovation and Entrepreneurship, to perform all actions as a result of the application for this project.

I declare that I do not receive or will apply for any other government funding for this project. 'Other government funding' also includes the tax credit in the context of Young Innovative Company (YIC).

By submitting this application I declare to have read and to accept the [Algemene Voorwaarden Innovatiesteun \(versie 2023.1\)](#). I also accept that through the Decision to Grant Subsidy additional special conditions can be imposed.

I declare that on the date of submission of this application, the company has no overdue unpaid taxes and/or employer social security contributions, is up to date with respect to all the required (environmental) permits, and has no pending recovery decision under European or national law (Deggendorf rule).

I declare that all information in this application, including the financial information of the company, is completed correctly.

I declare that the company and the group to which the company belongs do not catalogue as an undertaking in difficulty (UID) at the time of project submission. The only exception to this is if the enterprise cataloguing as UID is the only Flemish partner applying for support for the VLAIO Research project ("VLAIO-Onderzoeksproject") or VLAIO Development project ("VLAIO-Ontwikkelingsproject") in question. In this case this enterprise declares its agreement, on penalty of inadmissibility of the application for support, to remedy this status of UID in accordance with the terms and conditions of the support program concerned and/or the special financial condition to be fulfilled linked to the Decision to grant support.

I declare that all information in this application about the categorization as an Undertaking in difficulty (UID) has been correctly completed.

I declare that I will immediately inform VLAIO if the company or the group to which the company belongs is classified as an undertaking in difficulty between the time of project submission and the project decision. This applies for example in the situation where the financial data change in this respect as a result of the approval of the final annual accounts after the time of project submission.

I declare that the company in case of subcontracting of tasks to a research institute pays the service against market price or compensates the costs completely, with a reasonable margin in addition.

I hereby declare that all information in this application regarding the characterization as a "company that falls under the application of the requirement of a climate plan" has been filled in correctly. Please complete this information in the following [MS Word](#) file and upload it below.
